

Bilal Oke

09073433669 | oke.student123@gmail.com | Lekki, Lagos

Summary

I am deeply passionate about web and application development, with a long-term goal of becoming a full-stack developer capable of building scalable, impactful solutions. I am motivated by the belief that great technology does not just solve problems — it improves lives.

I approach every task with efficiency, precision and a commitment to quality. I hold myself to a high standard in everything I produce, understanding that consistent, clean work is what separates a good developer from a great one.

Education

Aptech | Lekki, Lagos

Software Development | 10/2028

Currently pursuing the Advanced Diploma in Computer Software Engineering, whilst taking coursework spanning Photoshop, Illustrator, Blender and Linux.

Honeyland College | Lekki, Lagos

08/2025
